#### THE CHARLESTON MARKET.

(FOR THE WEEK ENDING THURSDAY EVENING, MAY 24.) REMARKS—For several weeks the news from Europe has indicated the approach of a great money panio-one bring the strongest firms to bankruptcy. This crisis has no doubt been mainly produced by the danger of a war in Germany, and its gradual extension to all Eu rope, but the great decline in Cotton and other cause ave not been without their influence. The last news by the Cuba has probably given us a view of some of the worst features of the case commercially, and if the British Government has authorized the Bank to susrend the action of the charter, which is probably to permit a temporary suspension of specie payment, the stringency in money matters there will cease in a vary short period. The extent to which this crisis may act on this country is yet to be determined. In the South matters have been so prostrate for a long time that they cannot well be worse, and the great mass of the people here will pass through it without suffering to any great extent by its action.

COTION.—The demand for the staple has been good, and the market has had an advancing tendency most of the week. The trade has also developed a new feature, which is the continued advance of the staple here in the face of a heavy decline in England. The British market has been so long in the habit of dictating the price of the staple, that we naturally look for a fall here when the market there goes down. But the matter has en reversed on this occasion, and we hope for its coninuance, for the benefit of the cotton grower of the outh, whose interes; has long demanded a competitor to the English cotton buyer. The firmness of the New York market and the demand from Northern manufac ers, whose stock of good Cotton, we learn, is small, has given the tone to the market here, and has, to great extent, regulated the price.

On Friday last the market remained without change, 120 bales being disposed of at 29 to 32c. per lb. for Low Middling to Middling Cotton. On Saturday there was in improved inquiry, and most of the Cotton offered ound ready purchasers at improved lates, most grades of the staple advancing during the day % to 10, per 1b. and the sales amounting to about three hundred bales. Strict Middling Cotton bringing 83c. per lb. On Monday 100 bales changed hands, but the market was irregniar and prices so unsettled as to prevent reliable quo fations, but the transactions indicated a decided upward ndency in the value of the staple. On Tues lay prices ntinued to go up, and Strict Middling was sold at 38 per lb., -the operations of the day extending to about 100

bales. On Wednesday 250 bales were disposed of, Strict Middling Cotton i's some cases bringing 37c. per Ib Kesterday the market continued buoyant and upward with sales of 200 bales, mostly of the lower grades selling stock light. We quote:

AUGUSTA, May 23.—Corron.—No demand. In the absence of buyers, the market is firm. There being no sales, quotations cannot be given.

GOLD—Advancing, Brokers buying at 130@131, and selling at 182@133.

SILVER—Brokers buying at 122, and selling at 126.

Mobile Market.

MOBILE, May 19.—Cotton.—The noon dispatches from New York to-day quote Cotton steady at 36 to 38 for Middling, and evince to exame sixts of affairs there as exists in all of the Southern markets relative to the dispo ition to hold on for full prices, notwithstanding the unfavorable advices from the other side.

In this market but little has been done to-day. Only a for burers entered the market, and one party taking the greater part of what was sold. Sales reached 600 hales The market closes steady at 33 to 34 for Middling. Steek on sale light and poor.

MONETARY AND FINANCIAL.—The market opened very quiet in all departments, and continued so until almost middler, when the noon press dispatices from New York report ed an advance in gold from 129½ to 130½. This, added to the tremendous chipment of \$5,60,000 from 'ew York t-day, excited the market very much, and prices advanced here at once from 129@130 to 131, and very little has been done in striling, which has ruled steadily at 138 to 140 for undoubted bills.

New York Exchange has been unsettled, ranging for sight from ½ to ½ premium. Some of the banks were drawing at %, and others at % premium.

New Orleans sight remains unchanged, and we continue to quote par.

#### New Orleans Market.

New Orleans Market.

NFW ORLEANS, May 19.—Corron.—We have again to notice a fair demand, and although the movement was checked by the stringent protensions of factors—at least for the better qualities—and the Hmited scope afforded to buyers, yet the sales summed up 200 bales, taken by thirteen brokers, at full prices for strict good ordinary up to mirdling, inclusive. While there has been no quotable advance to-day, yet the seneral upward tendency of p foes fur a day or two past requires that we should advance our cutisde figures for strict good ordinary and atrict low middling. We accordingly quote ordinary at 26 to 29c, good ordinary at 30 to 32c, low middling at 33 to 35c, and middling at 35 to 37c.

MONEY MARKET. The New York World, Financial article of Monday, 22d inst. says:

Throughout the day there was a deep undercurrent of anxiety in financial circles, in regard to the expected news from Europe, and on receipt of the telegrams from the Cuba, at Halifax, announcing the decline of five-twenty bonds to €4@65, at d an advance in the Bank of England's rate of discount from seven to ten per cent, there was a pressure to buy gold and to sell stocks.

Immediately after 4.30 P. M., the Cuba's news was known in the gold room, and the government broker is said to have sold over \$2.000,000 at 130% to 150% to surply the demand. After 5 P. M., sales were made at 133 and afterwards at the close at 131%. Loans were made flat, and two, three, and four per cent. were also paid for carrying gold. Government is said to have sold about \$15,000,000 to-day.

The foreign exchange market was dull throughout the day, pending the expected news from Europe. Prime bankers' sixty day sterling bills are quoted 109% to 109% from first and second hands, and Paris francs 15 12%.

The weekly statement of the New York City banks.

The weekly statement of the New York City banks

The weekly statement of the New York City banks shows no important differences, and no clue to the movements of the \$13,000,000 of currency required to pay for the \$19,000,000 of currency required to pay for the \$19,000,000 of gold said to have been sold by Government last week. The loans are decreased \$1,930,-354, and the not deposits \$125,124. The specie is decreased \$374,037, while the legal tenders are increased \$669,448.

The stock market was strong throughout the day, until the receipt of the Cuba's news after 4.30 P. M., whon a raid was made on the market, and Erie was sold down to 72, Pittaburg to 84, Michigan Southern to 79 \( \frac{1}{2} \), when a raid was made on the market, and Erie was sold down to 72, Pittaburg to 84, Michigan Southern to 79 \( \frac{1}{2} \), Reading, 107%; Chicago and Northwestern to 28, New York Central to 93\( \frac{1}{2} \), of 93\( \frac{1}{2} \), and Cumberland to 45. The market closed unsettled but strong. Parties were buyers who are of opinion that the decline is only temporary, and that war in Europe will ultimately have the effect of advancing the prices os all American securities.

The money market is more active, owing to the de-

the effect of advancing the prices os all American se-curiti's.

The money market is more active, owing to the de-mand from buyers of gold from Government, and call loans range from five to six per cent.

About \$20,000,000 in currency will be required to-morrow to pay for the \$15,000,000 gold said to have been sold by Government to-day, and it is apprehended that some of the eager buyers to-day will be compelled to sell their gold for cash to-morrow, in order to meet their payments.
